Dhaka-1211, Bangladesh

PROFESSIONAL SUMMARY:

Full-Stack Web Developer with hands-on experience building responsive, database-driven web applications using **Node.js, Express.js, TypeScript, React.js, Next.js, Prisma, and PostgreSQL**. Experienced in developing REST APIs, authentication systems, reusable UI components, CRUD operations, database-backed features, and frontend-backend integrations. Strong problem-solving, debugging, and clean-code practices with experience working on full-stack and backend-focused projects.

TECHNICAL SKILLS:

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Bootstrap, React Router

Backend: Node.js, Express.js, REST APIs, Prisma, PostgreSQL, MongoDB, JWT, Firebase Authentication

Libraries & State: React Query, React Hook Form, Redux, Context API, Socket.IO

Tools & Deployment: Git, GitHub, Postman, Figma, VS Code, Chrome DevTools, Vercel, Netlify, Render

Development: Responsive Design, Mobile-First Development, Reusable Components, API Integration, Authentication, CRUD Operations, Database Design, Debugging

EXPERIENCE:

Texium Solutions, Life Sciences

Jan 2023 – Jul 2023

Software Engineer Intern

Remote

- Contributed to software development, testing, debugging, and feature improvement.
- Collaborated with the engineering team to troubleshoot issues and deliver reliable solutions.

PROJECTS:

Nestora — Full-Stack Rental Platform

[Live Demo](#) | [Frontend](#) | [Backend](#)

Next.js | TypeScript | Tailwind CSS | Prisma | PostgreSQL

- Built a responsive full-stack rental platform using **Next.js, TypeScript, Prisma, and PostgreSQL** for property discovery and rental management.
- Developed reusable UI components and responsive layouts for a consistent experience across desktop and mobile devices.
- Implemented user, property, rental request, and payment-related workflows across the application.
- Designed database-driven features using **Prisma and PostgreSQL**, integrating frontend functionality with backend services.

ServerPulse — Backend API

[Live](#) | [GitHub](#)

Node.js | Express.js | TypeScript | PostgreSQL | REST API | JWT

- Built and structured a RESTful backend API using Node.js, Express.js, TypeScript, and PostgreSQL for user and issue management.
- Implemented JWT-based authentication and secure password handling for protected API access.
- Designed PostgreSQL-based data management and tested API functionality using Postman.

Handy Works — Responsive Web Application

[Live](#) | [GitHub](#)

React.js | React Bootstrap | Bootstrap | Firebase | React Router

- Built a responsive web application that provides users with account registration, login, dashboard access, and interactive features.
- Implemented Firebase authentication and backend integration to manage user access and application data.

Top Gear Perform — Team Project

[Server](#) | [Client](#)

React.js | Tailwind CSS | DaisyUI | Redux | Socket.IO | Firebase

- Developed features for a performance management platform that helps users monitor employee performance through a centralized dashboard.
- Built responsive UI components and interactive dashboard features for an accessible user experience.

EDUCATION:

Eden Mohila College, Dhaka, Bangladesh

BA (Honours), English Language, Literature & Linguistics

LANGUAGES:

Bangla — Native | English — Advanced

CERTIFICATION:

Complete Web Development Course — [Programming Hero, 2022](#)

Next Level AI Driven Bootcamp — [Programming Hero, 2026](#)
